"Greatest Mother in the World."

Urgent Appeal for More Work from the Red Cross.

The Review has been requested to publish the following letter received recently by the Bow Island branch of the Red Cross:

In view of the terrible conflict of the past few weeks, the demands on the Red Cross Society are becoming each day more serious. At the outset of the present fighting, the Head Office of the Canadian Red Cross cabled England as follows:

"Holkette, London:—

"Executive committee met today. Instructed me to cable you not to let wounded suffer for lack of anything we can provide."

MARSHALL, March 25th."

It was felt that this cable expressed the sentiments of the Canadian people and that whatever demands the Red Cross may have to meet, the men and women of Canada would be ready to rise to the emergency.

In view of the seriousness of the situation, a special appeal is issued to Red Cross workers connected with City and Town Branches of the Society throughout Alberta, as it is felt that on the women of these branches, there rests today, a greater responsibility than at any previous time during the war. The attention of every woman connected with Red Cross work of these Branches is directed to the fact that during the coming months, Canadian country women have little leisure to devote to Red Cross work, and that in consequence our output of Red Cross supplies is less during these months than at any period of the year.

Last week alone, over 12,000 British casualties were added to the men already wounded and disabled. The Red Cross can adequately meet the enormous demands made upon its supplies only through the united effort of all those workers who, having leisure to do so, are willing to devote still more time to the preparing of supplies for our sick and wounded.

"The Red Cross is today, the greatest Mother in the world. It is the Mother of millions, while millions of Mothers wait and pray at home. How much this work means is learnt only by those who are giving their services at the front, and to whom these services are given."

As the conflict grows greater, so do the needs of the Red Cross increase. Under these circumstances, Canadian women of our towns and cities are urged to cooperate to the utmost with their respective Branches, to ensure an adequate output of supplies during the coming months.

Bishop of Calgary will visit Bow Island.

Confirmation at All Saints' Church.

On Sunday next, May 12th, the Bishop of Calgary is at All Saints' both morning and evening, and is to administer the rite of Confirmation at 7.30 in the evening. (Will friends please note the alteration from Monday.)

Choir practice Friday 8.30 p.m.
Sunday school every Sunday at 11 a.m.
Chas. Bishop, pastor.

Roundabout school, divine service every Sunday at 4.0 p.m.

Assistance for Farmers.

There has been established by the Alberta Department of Agriculture a Field Agent's Office in Lethbridge, Phone 1603.

The chief purpose of the office is to promote greater production of food for the soldiers of Great Britain and her allies. The duties which the Field Agents are prepared to undertake are:

1. To assist farmers in securing labor;
2. To advise farmers where and how seed grain may be obtained;
3. To arrange for the renting of unused lands by persons who can make use of them;
4. To give information regarding available equipment and labor to those who wish to break land;
5. To give assistance in the identification of weeds and also in their eradication or control;
6. To enlist the interest of farmers in employing and fitting inexperienced soldiers to settle on land;
7. To give assistance wherever possible in other matters which constitute problems to the farmer.

The office will be open for four months—April, May, June and July. You are asked to make use of these services and to bring them to the attention of your neighbors and acquaintances.

Local and General

Zion Lutheran Church. - English service in the Presbyterian church on Sunday, May 12th, at three p.m. - N. R. T. Beas, pastor.

Bow Island United Church. - Divine service on Sunday, May 12th, at eight p.m. Song service commences at 7:45 p.m. Resumes the new time.

Homebush School. - Divine service commences at four p.m. each Sunday.

Mrs. (Rev.) A. D. Richard of Medicine Hat visited the town last week and addressed the Ladies' Aid of the United Church upon the subject of Women's Missionary work. After considerable discussion an organization was decided upon to be conducted in connection with the Ladies' Aid, and the following officers were elected: - President, Mrs. Hurlbut; Secy., Mrs. J. H. Lyons; Treasurer, Mrs. J. H. Haines; Corresponding Secretary, Mrs. J. M. Carson.

The regular meeting of the Ladies' Aid of the United Church will be held at the home of Mrs. J. R. Agar on Thursday, May 16th, at three p.m. prompt.

The Bishop of Calgary will be at St. John's Church on Sunday next, May 12th, both morning and evening, and at the evening service will administer the rite of confirmation.

Mass will be celebrated at the Church of the Sacred Heart, in the St. John's district, on Wednesday, May 15th, at nine o'clock, and at St. Michael's, Bow Island, on Sunday, May 19th, at eleven a.m.

A public meeting called by the Acting-Mayor, W. J. Oliver, will be held in the Odd-fellows Hall this evening (Friday) at 8:30 to discuss matters in connection with the Town Council and the school. You should be there.

No word has come through as yet from Edmonton relative to the procedure to be taken in re-organizing our Town Council. In the meantime there being no quorum no meeting of the Council is possible.

The ladies of the Catholic Altar Society will meet at the home of Mrs. Albert Goodson on Thursday afternoon, May 16th.

The School Trustees have made arrangements with the rataplayers living south of town to run the school car until the end of June.

The struggle over the new school still continues, and in certain quarters of the town is very much in evidence. It is hardly the matter cannot quickly be discussed and dealt with without that element of personal animosity which only too plainly to have been involved. This is not doing any party any good and is doing the town a lot of harm. At the meeting of the School Trustees on Monday night the members of the Board gave ample proof of their desire to ventilate any grievance or complaint by meeting the following audience: "That the rataplayers be requested to select a competent man to inspect the new school building and report on the same."

It is not the desire of the Review to shield any one, far less is it our intention to condone the belaying of any public trust, nevertheless those who have undertaken the responsibility of looking after our public affairs must be protected and in saying that our present Trustees would not knowingly consent or permit any wrongdoing, we believe we have the majority of the rataplayers with us.

The Board of Trade will hold its next meeting on Monday night, when a large attendance is particularly desired. Several matters of importance to the town will be discussed and you, Mr. Citizen, should be there.

The ladies of All Saints Church will meet at Mr. R. Hinton's on Thursday afternoon of next week.

The little three months old baby boy of Mr. and Mrs. C. S. Smith died on Wednesday afternoon, the interment taking place the next day in the Bow Island cemetery.

A canvasser representing the Non-Partisan League has been coming the district, we understand, during the past few days, and from more than one has succeeded in obtaining a donation of \$10.00, which it is understood is to be used in spreading its doctrine. We do not know anything about this League and cannot therefore fore advise our readers in connection with it. We should imagine, however, that if anyone has \$10 to spare the Red Cross is just as worthy, and probably more so, than anything else.

Bailey-Leary.

A very pretty wedding occurred Thursday, April 18th, at Alliance, Neb., when Miss Charlotte A. Leary became the bride of Mr. Cecil Bailey of 3066 South Hancock St., Denver, Colorado.

The young couple are spending their honeymoon in Denver, the home of the groom. Mrs. Bailey is the daughter of Mrs. E. Leary of Bow Island, Alta.

Mr. Bailey was a well known young business man of Holland, Neb., where he was connected with the Holland Portland Co. He is now a Lieutenant in the U.S. Army and is stationed at Camp Funston, Kansas.

FERTILE PLAINS.

The Ladies' Circle of Fertile Plains will give a program, sale of useful articles, and a lunch on the evening of May 24th, at the Fertile Plains school-house. Net proceeds to be sent to "The Fatherless Children of France."

WINNIFRED.

The Winnifred branch of the Red Cross are having an auction sale of stock and poultry on May 18th, in Winnifred, at 2:30 p.m.

The Manurial Value of Clover.

(Experimental Farms Note)

The amount of semi-decomposed vegetable matter or humus present in our cultivated soils, sandy and clay loams, bears an intimate relation to their productive capacity.

Humus not only fulfills the mechanical function of rendering soils porous and more retentive of moisture, but furnishes also the essential medium for the activities of the bacteria, which liberates plant food in the soil. Furthermore, humus constitutes the chief natural source of the soil's nitrogen supply.

Applications of barnyard manure may be considered the chief means employed in the maintenance of humus in the soil. Supplementary means are the growing and ploughing in of a green cover-crop such as rye, buckwheat, rape, vetches or clover. Of these clover, where conditions are conducive to its satisfactory growth, is to be generally preferred, by means of its deeply ramifying roots, clover disintegrates and aerates the lower soil layers and brings up therefrom plant food supplies unavailable by other means, shallow root crops.

How does clover compare with manure as a fertilizer? Barnyard manure of good average quality contains approximately 10 pounds nitrogen, 5 pounds phosphoric acid and 10 pounds potash per acre. Therefore 10 tons of harvested manure would furnish about 100 pounds nitrogen, 50 pounds phosphoric acid and 100 pounds potash.

Experiments conducted at the Central Experimental Farm, Ottawa, have shown that a vigorous crop of clover will contain, at a moderate estimate, in its foliage and roots, from 100 to 150 pounds nitrogen, 30 to 45 pounds phosphoric acid and 45 to 115 pounds potash per acre.

A good crop of clover from one acre if it were turned under may, therefore, be deemed equal in fertilizing value to an application of ten tons of barn yard manure.

In the experiments referred to, 10 pounds per acre of common red clover was seeded down with various grain crops, while adjoining plots were seeded with grain alone. In no instance did the growth of clover depress the yield of grain with which it was seeded.

In the following year, fadder corn (Leaning) produced 5 tons, 450 pounds more after wheat with clover than after wheat without clover. After barley and oats, increases of 11 tons, 1250 pounds and 5 tons, 1400 pounds respectively, of corn, per acre, were obtained on the clover plots.

With potatoes the results were equally striking. After wheat, barley and oats with clover the increases

were, respectively, 43 bushels, 20 pounds; 29 bushels, 40 pounds and 24 bushels of potatoes, per acre, as compared with the yields from adjoining plots without clover.

The full benefits from clover will be as a rule be mutually persistent for several years.

On soils which are deficient in lime, a satisfactory growth of clover will be encouraged by an application of, say, two tons of ground limestone per acre. As a phosphatic fertilizer, designed to benefit both the grain and the clover, 300 pounds of superphosphate or 500 pounds of basic slag, per acre, may be recommended.

Unfetched wood ashes contain, on an average, from 4 to 8 per cent. of potash, about 2 per cent. of phosphoric acid and from 20 to 30 per cent. of lime. They are eminently suitable as a fertilizer for clover and, when procurable at a reasonable price, should be applied at the rate of from 25 to 40 bushels (1000 to 1600 pounds) per acre.

Do You Want

Breaking

Done?

If you want your land broken up and made more productive, arrangements, kindly notify A. E. QUAIL, Lethbridge, who has been appointed by the Provincial Government to bring together those who have engines or horses and want to break land, with those who have breaking to let in the following territory: - Little Bow, Taber, Warner and Lethbridge.

Can You Do

Breaking?

If you are in a position to do break land in touch with M.H. QUAIL, who has, as stated above, been appointed by the Government to tell you of those who have breaking for you to do.

The Model TOWN

the paint protected town

B-H "ENGLISH" 70% Pure White Lead (Equivalent to 100% Pure White Lead) 100% Pure Paint

If this paint were sold at a price half as high again as any other (which it is not) it would still be the economical paint to use on your house, in either covering capacity it has no equal. A gallon of it goes so far that you buy less of it and redo more with it. Paint with B-H "ENGLISH" PAINT this spring—and your house is protected for years, where a coat of ordinary paint will last but a few months.

The difference lies in the above formulae. What other paint is so correct in this respect that its makers guarantee it? What paint can a dealer furnish you with anything like the quantity of white lead in it that has B-H "English"?

This was the formula when lead was lower in price—this is the formula still, even though lead is extremely high in price. It HAS to be the B-H formula because the guarantee that calls for it is printed right on the B-H can. We could not cheapen B-H "English" Paint even if we wanted to. So it's your safe paint as to quality your care, paint as to covering capacity, your dependable paint as to durability. Find the B-H dealer in your town. Let's the one you buy from.

Other B-H Products of Sterling Worth

We carry and recommend the following B-H products:

- For Interior Finishing: "Chas. Lee" the perfect Varnish Stain.
- Staining the Roof: "Anchor Brand Shingle Stain" in 19 different colors.
- For Barn Floors, Cellars and parts exposed to weather: B-H Porch Floor Paint.
- Varnishing a Floor: "Floortone" excellent for Interior floors.
- For Barn and Outbuildings: Imperial Barn Paint.

DUNLOP TIRES

Make a Comparison

Assume nothing in a tire that you cannot see.

It is easy to measure "Traction's" big corrugations, or "Special's" big "buttons," with any competitive anti-skid.

Dunlop Tires go Further and go Better.

"SPECIAL" - "TRACTION"

Burdett.

Donald Galtman, son of Mr. and Mrs. Galtman of Burdett, returned from the front last Sunday. Donald was wounded some time ago and has but now sufficiently recovered to return home. In consequence of his injuries he is so weak that he was discharged. His arrival here was taken advantage of by his many friends to give him a welcome home, and there are many who hope and trust that he will quickly recover and enjoy once more his former good health.

Otto Kasper, an alien on parole, who has been employed by one of the business firms in Burdett for some time past, seems to have been indiscreet enough to incur the resentment of some of the young fellows around town by his disrespectful remarks, and in consequence he was informed in a manner that was unmistakable his presence was no longer desirable. With the aid of the Constable English of the P.P., he arranged for a transfer and is now looking in the sun in one of the internment camps that have been established in British Columbia.

The Customs office is maintaining its right for a place in the sun by constantly increasing its business. The receipt for April last totalled \$281,136, being \$237,14 in excess for the same period last year.

Dorothy, the little daughter of Mr. and Mrs. E. Brown, sustained a broken collar bone on Monday when returning from school. Apparently she was running down hill and tripped up. We understand, however, that she is getting along remarkably well under the circumstances.

Mr. E. Brown had several of his horses infringing the food laws last Saturday, when several of them obtained access to a wagon load of wheat and ate rather more than was good for them. One unfortunately died, but the others understood recovered after treatment.

When seeding is nearly all through in this district, and in some places is already making a brave show above the ground. Nearly every farmer this year has increased his acreage, and altogether it is probably not an exaggeration to say that there is a twenty per cent increase.

Mr. Galvin attracted considerable attention last Saturday by a shipment of two imported Percheron Mares and a three-year-old stud. He also received a fine Shorthorn bull and heifer. They are now on his farm south-west of Burdett.

W. Corby's vacation in the country is suiting him wonderfully well. He seems to be developing the notion now that traveling beats even the kitchen. Wait till the mosquito: come around.

It is reported in town that Mr. S. Hazel has secured a flowing well of a barrel a minute. The well was drilled by J. Eward and the water is flowing through a two-inch pipe.

One of our country residents should have left on Saturday night to have reported at Lethbridge by 10 a.m. the next morning. Unfortunately his slumber was deep and consequently he had to solicit Sandy's auto livery Monday morning to keep the appointment. Needless to add, he succeeded.

Mitchell Bros. south-east of

The Ford Saves the Hay and Oats the Horses Eat

IT HAS been estimated that five acres of land are required to maintain one horse for a year, and that the same five acres would produce nearly enough food for two people. If 50,000 Canadian farmers each replaced one horse with a Ford, 250,000 acres would be added to the Nation's source of food supply and enough extra food made available to feed 100,000 people.

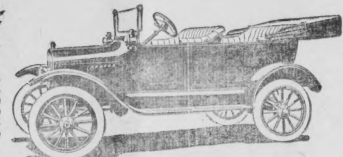

Just think what a great service this means to the country at the present time and the benefit to the farmers from the sale of food produced on this acreage.

A Ford car also saves the farmer a week or more of valuable time each year, which can be used for further productive work. The Ford travels three times as fast as a horse and rig—costs less to run and keep, and is far easier to take care of. With labor so scarce and high priced, time means money, so do not delay in getting your Ford.

When writing mention The Bow Island Review

town bought a Dodge car from the Burdett garage last week. There is only one, we believe, now left of the carload that was recently brought in.

Town lots are selling remarkably well and reminds one very forcibly of the real estate boom here some years ago. Now, however, it is a bona fide sale to real home-seekers, and they are the kind that Burdett is looking for. The majority of the lots have been sold to farmers, indicating that numbers of them intend to make Burdett their place of residence in the near future. It may not be out of place perhaps to remind our readers that at a meeting of the Village Council last Monday night it was decided to increase the price of town lots on June 1st, when they will double in value. No need to say that now is the time to buy.

The local vet., Dr. W. T. Brophy, has taken up his residence on his farm, north-west 9-10-11.

Goods shipped by the local branch of the Red Cross last month included the following: 10 handkerchiefs, 2 wash-cloths, 10 surgeon's gowns, 7 nurse's aprons, 8 pillow slips, 1 many tail, 3 flannel bibbers, 9 binders, 6 surgical stockings, 12 tri. bandages, 16 shirts, 11 pyjamas, 9 cap. bags, 6 wringers, 8 stretcher caps, 4 pair knitted socks.

In Memoriam.

Mrs. Pannie Hapson Parnall was born in Ontario on May 11, 1845, and died April 26, 1918, at the home of her youngest son, Mr. Wm. Parnall, 3 miles south of Winifred, Alberta.

She was married to Mr. Oliver Parnall in 1865. To them were born 4 children, Louis, Bert, and William, and one daughter. One son and the daughter passed on before in the State of Michigan. Mr. Oliver Parnall

and the husband, died June 12, 1915.

Mrs. Parnall leaves to mourn her loss two sons, Bert and William, and two grand-daughters and two grand-sons and 2 great-grandchildren. One grand-daughter, Mrs. Ida Hampton, and two little children of Alabama, whose mother was Mrs. Parnall's only beloved daughter, deceased; and two grand-sons, Sidney and Edna, sons of Mrs. Parnall's son Louis, deceased, and other grand-daughter, Lela, Bert Parnall's daughter, were all at the funeral. Of the 10 brothers and 2 sisters there still remain 7 brothers, 4 in Michigan and 3 near Winifred, Alta.

She and her husband each lived the full allotted time of mankind. Mr. Parnall died when 74 years, 8 months of age, and Mrs. Parnall when 75 years, 11½ months of age.

Mr. and Mrs. Parnall were married in 1865 and lived at Pankham, Ontario, until 1879.

In 1882 they moved to Huron Co., Michigan, residing there for 20 years. In 1912 they moved to near Winifred, Alberta, Canada, July October, 1914, then to eight farms in miles south of Winifred, where they resided at the time of death.

Mrs. Parnall was converted and joined the United Brethren church at the age of 18 years. She was a member of the Methodist church at time of death.

The funeral took place at the home of her son William, 3 miles south of Winifred, at noon, Sunday, April 28, 1918. The funeral train consisted entirely of sons.

Here C. A. Bishop, the M. E. minister of Bow Island officiating.

She was laid to rest in the Winifred cemetery, beside her husband.

Experimental Farm Note.

Potatoes are plentiful this spring. Preserve your seed from a field which produced a good heavy crop the previous year. The smooth appearance

of the seed alone is no guarantee of a heavy crop. Disinfect the potatoes before cutting the seed. Soak them for three hours in one of the following solutions:

Corrosive sublimate: 2 oz. in 25 gallons of water. (Note: fatal poison to men and beast.)

Formalin: 1 pint to 25 gallons of water.

In cutting for sets, throw out all potatoes showing rot or brown spots, or rings near the stem end and in the flesh.

Cut the seed immediately before planting. The longer you keep them out, the smaller the yield. Be prepared to meet the ravages of the potato bug. Spray your potatoes. Spraying pays! Use Johnson's Hothouse mixture. The poison for the bug, the Hothouse for Late Blight. This is the solution: 1 lb. of bluestone, 1 lb. lime, 40 gallons of water. Dissolve bluestone first in fifteen gallons of water. Make the lime in another vessel, strain it if necessary. Pour both solutions together and make up to forty gallons by adding water. Add arsenate of lead for forty gallons solution. Stir well, and fill pump through fine meshed sieve. Particles will clog nozzle and are most annoying. Spray thoroughly, and cover all leaves well with spray. Don't drench. Commence as soon as the plants are a few inches high continue every two weeks throughout the season.

For a large field use a high pressure hose-power outfit. For smaller areas there are many good hand-sprayers on the market. Get your spray chemicals right away and arrange for the purchase of a sprayer; sometimes it is a good practice for several farmers to club together and buy a good power sprayer.

Watch the field, and throw out any sickly looking or dying individual plants. Mark the one hundred best hills for future seed supply. From these select single hills that have the best and the largest number of uniform potatoes and plant these separately next year, and increase this practice until your strain yields the highest in the neighborhood.

Controlling Potato Diseases from the Start.

Kodaks

The Bow Island Drug & Stationery Co Ltd
"The Blaine Company."

Do You Know ?

That our Saddles are made of California
Leather ? That this leather is hard to obtain
now on account of the demands of the U.S.
government. That if you do not buy your
saddle quickly that you will pay considerably
more for it later on ? That we have a good
line at prices you can afford to pay ?

Bow Island Saddlery, - - W. J. Oliver.

Winnifred.

Miss Jane Wood is reported sick
and not able to be at the post-office
this week.

M. H. Smith and Frank R. Hills
have been notified to report at Leth-
bridge on May 10th for medical ex-
amination. This is the second call.

Dad Winchcombe has received his
new orders regarding the pool hall
and suit drinks.

Miss Ruby Atwood is returning to
Winnifred to take her old school back.
Her many friends and scholars are
rejoicing at her return.

Harry Winchcombe is leaving this
week to accept a position in a hard-
ware store at Barons.

Mrs. James Castle has been visiting
her daughter Verna at St. Theresa's
Academy, Medicine Hat, for a few
days.

Mr. and Mrs. Billy Larsen of Grassy
Lake motored to Winnifred and were
the guests of Mrs. James Larsen.

Dr. McDonald and H. H. Brown of
Medicine Hat spoke in the Oddfellows' hall to a large crowd on Sunday in
connection with the Red Triangle
Fund of the Y.M.C.A. It is the in-
tention to raise \$500 from the Winni-
fred district and \$200 from the White
district. It is pleasant to record that
everyone seemed gladly willing to re-
spond, and from indications it would
seem that the fund will get a good
boost here. Mr. Howard Piets was
appointed chairman and Mr. John
Christopherson secretary of the cam-
paign. It is to be hoped, for the sake
of the boys at the front, that Winni-
fred will donate generously.

Philip Hapson and Oscar Olsen have
been notified to report for duty at
once, leaving for Calgary May 7th.

Miss Ethel Hinck of Foremost and
Jack McNabb of Grassy Lake visited
Mr. and Mrs. Jas. Larsen on Sunday.

Good Cheer S.D.

Mr. Tremblay and family were vis-
itors at Mr. Regimbel's Sunday.

Mr. and Mrs. A. F. Werts and little
sons were visitors at the home of Mr.
W. J. Carlie Sunday.

Mr. and Mrs. G. A. Lindquist and
little daughter, Ethel, motored to Bur-
dett Sunday to visit Mr. Win. Perry
and family.

Mr. Gordon Lindquist, of Victoria,
B. C. visited his brother Art Lindquist
last week.

Mr. Little who purchased the Mad-
ore farm has sold it to Mr. Chenier.
Mr. Bergeron of Bow Island was the
salesman.

Mr. Godfrey Johnson is the first to
report having his crop in this year.

Mr. Charlie Johnson has three out-
fits busy on the Kirsch farm which he
purchased recently.
